Product Features

Terahertz Waves: A unit of frequency, 1THz (1000 GHz), corresponds to a wavelength ranging from 3 to 3000 micrometres.

PEMF Ultra-long Waves: A type of low-frequency alternating magnetic field that penetrates deeply into the body.

Thermal Energy Transfer: It helps to relieve pain, relax muscle, alleviate inflammation and increase tissue flexibility.

Air Massage: It is a technique that uses controlled airflow to apply uniform and consistent pressure to the body. This method offers standardized, flexible service with persistent application, ensuring hygiene assurance throughout the process.
